

Wardiam Lock

Features

Based on Ontech own magnetic controlled fields technology
International patent application: WO 2015/044487
MFS integrated inside the lock
Preventive feature
Discriminative detection
24/7 continuous protection
Capacitive touch panel for entering code
Protection with tamper

Dimensions

220 x 70 x 23 mm

Weight

650 grams

Wireless communications

Sub-1 GHz (433/868/915 MHz) up to 50 m range

Power supply and autonomy

5V power supply input (microUSB)
3 months autonomy with internal 3.7V rechargeable battery

Environment requirements

Working temperature: 0 - 35 °C
Storage temperature: -20 - 45 °C

Regulations

CE/UL/Grade 2

Box contents

Wardiam +Lock
5V microUSB power supply
